NANDANI PATEL

A Student

✉ nandanipatel7075@gmail.com ☎ 9909476242 📍 Ahmedabad, Gujarat

I am actively seeking entry-level opportunities to gain hands-on experience and contribute to the growth of a dynamic organization. As a fresher, I am eager to take on various projects and responsibilities to further develop my skills and knowledge in the field. My goal is to contribute to the success of your organization while growing professionally in a supportive and innovative environment.

Projects

School ERP Application

- A school ERP (Enterprise Resource Planning) project in Flutter is a mobile app that helps schools manage their operations. It can be used for tasks such as tracking student attendance, managing grades, and uploading assignment.
- Designed UI layouts using Flutter widgets.

Fitness Yoga App

- Design and developed the app which focuses on fitness.
- Responsive UI Created which contains new widgets and plugins and implemented them in projects.

Food App's UI

- Designed Attractive UI with different features and Detail Screens.
- Designed a Food detail page featuring an image , detailed descriptions, and other details.

Designed and developed static single-page UIs for practice, focusing on enhancing layout design and user interface skills using Flutter.
